E GRAN A NEW DERIVATION CONCEPT

ETA has always had a very specific mission: to create a resilient product that is highly performing, guarantees high protection of the internal wiring and adapts to the multiple needs of the customer.

**ETA is
History
Family &
Passion**

BOXES

1978

OUR HISTORY

Antonio Turati's heirs found ETA. Production work begins at the Castelmarte site

1980

The first numerically controlled machine is used. AR9000 is conceived, a very successful cabinet

1992

The new headquarters are built in Canzo

1999

Production of ARETA begins

2011

E NUX production begins: a construction system with avant-garde materials

Since 1978, E.T.A. SPA designs and manufactures high quality Enclosures for Industrial Automation, Harsh Environments, LV Energy Distribution and Information Technology. Our company's goal is to combine technological innovation with the experience acquired over the years, in order to offer the customer not simply a product, but a product solution.

handle is born

The
junction boxes
range
by ETA is born

1

BUSINESS SECTORS

E GRAN Fe was born with the aim of making ETA junction boxes range increasingly complete and suitable for every need as:

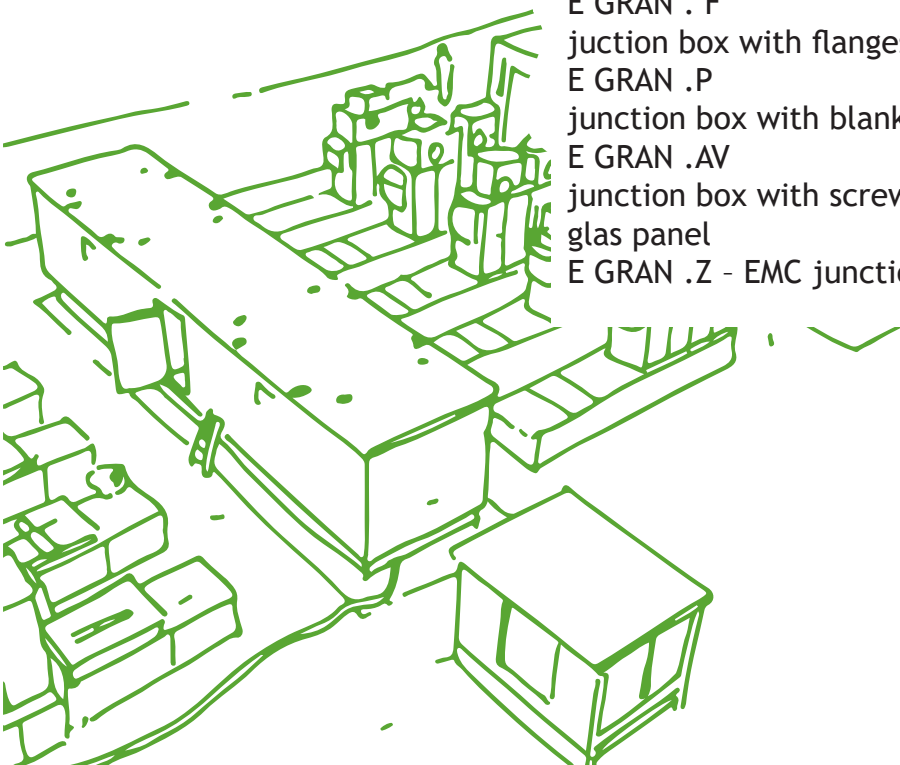

3

1. AUTOMOTIVE
2. PACKAGING
3. HANDLING & LOGISTIC
4. WATER & WASTEWATER
5. ENERGY MANAGEMENT

5

- E GRAN .A

4

PLUS & BENEFITS

Our mission is to create a highly performing product that can comply with the already existing range of E GRAN stainless steel junction boxes.

CLOSING SYSTEM

Structure that guarantees ease of use, performance and reliability thanks to the innovative panel closing system with 1/4 turn anti-removal screws, taken from E GRAN stainless steel range.

PANEL

The corners of the panel are no longer welded, but are formed and this guarantees greater sturdiness to the entire structure. Lengthening of the fold edge of the panel, which improve the IP protection degree: the volume of water hitting the polyurethane gasket is reduced and, consequently, the IP protection degree is improved.

HINGES

New hinge design, which allows assembly without drilling the panel and is more performing.

NO HOLES

No holes on the enclosure, greater sealing of the IP rating.

FLANGES

Machine-rimmed and rubberized cable gland flanges: it facilitates cable entry and exit.

MOUNTING PLATE

New internal mounting plate, optimized with greater surface area and space for wiring

WALL-MOUNTING BRACKETS

Wall mounting brackets designed according to the innovative E COR sheet steel concept: the enclosure is already prepared for mounting the accessory.

ENCLOSURE'S CAPS

Guarantee better visual uniformity with ETA's enclosure's range and guarantee the IP protection degree. They're painted in RAL 7035.

EQUIPOTENTIALITY BETWEEN PANEL AND ENCLOSURE

simplification of the earthing system between the two.

CUSTOMIZATION

For W=800 mm range there is the possibility of mounting:

- or nr. 2 mounting plates of 400 mm width each
- or double DIN profiles
- or double mounting plate with W=400 mm
- or DIN profiles + a mounting plate

E GRAN, HOW THE CODE IS MADE

E	G	04	15	08	.A
ETA	E GRAN range	width	height	depth	product version
		01= 150 mm 02= 200 mm 03= 300 mm 04= 400 mm 05= 500 mm 06= 600 mm 08= 800 mm	01= 150 mm 02= 200 mm 03= 300 mm 04= 400 mm 05= 500 mm	08= 80 mm 12= 120 mm	.A= with screwed panel .F= with flange .P= with blank door .AV= with screwed plexiglas panel .Z= EMC version

IP PROTECTION DEGREE

The IP protection degree is guaranteed by the two-component silicone foam gasket and is essentially defined by two characteristic numbers

IP 1ST DIGIT SOLID	IP 2ND DIGIT LIQUID
0 No protection 1 Protection against solid bodies above 50mm 2 Protection against solid bodies above 12mm 3 Protection against solid bodies above 2,5mm 4 Protection against solid bodies above 1mm 5 Protection against dust 6 Total tightness to dust	0 No protection 1 Protection against vertically falling 2 Protection against water drops falling with up to 15° inclination 3 Protection against water drops falling with up to 60° inclination 4 Protection against water splashes from all directions 5 Protection against jets of water from all directions 6 Protection against water splashes similar to sea waves 7 Protection against immersion 8 Protection against submersion

OUR SOLUTIONS

E GRAN .A - JUNCTION BOX WITH SCREWED PANEL

E GRAN .F - JUNCTION BOX WITH FLANGES

E GRAN .P - JUNCTION BOX WITH BLANK DOOR

**E GRAN .AV - JUNCTION BOX
WITH SCREWED PLEXIGLAS PANEL**

E GRAN .Z - EMC JUNCTION BOX

ETA junction boxes are compliant with:

The CE mark certifies that the product complies with the requirements established by the European Union in terms of safety, health and environmental protection.

The UKCA (UK Conformity Assessment) is the new UK product mark that is required for the export of products to the market of England, Wales and Scotland

EAC (EurAsian Community) is a certificate of conformity for Eurasia.

RohS (European Directive 2011/65/EC) regulates the limitation to very low values of lead, mercury, cadmium, hexavalent chromium and other substances in the production of most of the electrical and electronic equipment marketed within the European Union.

TUV (Technical Control Association) is the IP certification

RINA is a mandatory certification in the case of products that must be installed in marine environments.

The UL Listed mark is an Electrical safety certification for the American and Canadian market

JUNCTION BOXES WITH SCREWED PANEL

CHARACTERISTICS

Junction box with screwed panel composed of:

Enclosure and screwed panel manufactured from DC01 sheet steel; Blank panel, screwed with anti-slip screws.

MATERIAL THICKNESS

Enclosure and panel: 1,2 mm

PAINTING

Standard electrostatic cycle E DUP
ETA: liquid painting with cathodic electrophoresis process with epoxy resin and finishing with thermosetting epoxy polyester powders.
Colour: RAL 7035 textured finish.

COMPLIANCE

IP66 complying with EN62208; EN60529
NEMA 4 complying with UL508A; UL50
Protection degree guaranteed by the two-component polyurethane foam seal
IK10 degree of impact resistance complying with EN62208; EN62262

CERTIFICATIONS

CE, UKCA, ROHS, TUV, RINA, EAC, UL LISTED
